Professional Summary

Motivated and detail-oriented B.Tech Computer Science graduate with strong interest in Machine Learning and Artificial Intelligence. Skilled in Python, Scikit-learn, Pandas, and NumPy with hands-on experience in building ML projects including recommendation systems and plagiarism detection tools. Familiar with data preprocessing, feature engineering, and model evaluation. Eager to start a career as a Machine Learning Engineer and contribute to real-world AI solutions.

Technical Skills

Languages	Python, SQL
Machine Learning	Scikit-learn, NLP, Model Evaluation, Feature Engineering
Libraries	Pandas, NumPy, Matplotlib, Seaborn, NLTK
Concepts	Data Analysis, EDA, Statistics, Data Cleaning
Tools	Jupyter Notebook, Google Colab, VS Code, Git

Projects

Anime Recommendation System

- Developed a content-based recommendation engine using Python and Scikit-learn on 12,000+ anime records.
- Performed data cleaning, preprocessing, and feature engineering to improve recommendation quality.
- Applied TF-IDF vectorization and cosine similarity for personalized recommendations.
- Conducted exploratory data analysis to analyze user behavior and genre preferences.

Plagiarism Detection System

- Built a plagiarism detection tool using Python, NLTK, and Scikit-learn.
- Implemented tokenization, stopwords removal, and stemming for text preprocessing.
- Used TF-IDF vectorization and cosine similarity to compare document similarity.
- Evaluated over 200+ document pairs and achieved more than 90% precision.

Education

B.Tech in Computer Science Engineering	2026
Babu Banarasi Das University, Lucknow	
Class XII (CBSE)	2021
Vidya Public School, Ghazipur	
Score: 87%	
Class X (CBSE)	2019
Vidya Public School, Ghazipur	
Score: 73%	

Certifications & Training

- Data Science & Artificial Intelligence Training — Grastech Pvt. Ltd.
- Hands-on experience in data preprocessing, EDA, and ML workflows using Python.
- Worked with real-world datasets and visualizations using Matplotlib and Seaborn.

Achievements

- Built end-to-end Machine Learning projects focused on NLP and recommendation systems.
- Continuously learning advanced Machine Learning and Deep Learning concepts.
- Strong problem-solving and analytical skills with hands-on project experience.
