Professional Summary

Motivated and detail-oriented B.Tech Computer Science graduate with strong interest in Machine Learning and Artificial Intelligence. Skilled in Python, Scikit-learn, TensorFlow, Pandas, and NumPy with hands-on experience in building and deploying ML/Deep Learning projects including LSTM-based next word prediction and content-based recommendation systems. Familiar with data preprocessing, feature engineering, model evaluation, and end-to-end deployment using Streamlit. Eager to start a career as a Machine Learning Engineer and contribute to real-world AI solutions.

Technical Skills

Languages	Python, SQL
Machine Learning	Scikit-learn, NLP, Model Evaluation, Feature Engineering
Deep Learning	TensorFlow, Keras, LSTM, Neural Networks
Libraries	Pandas, NumPy, Matplotlib, Seaborn, NLTK
Concepts	Data Analysis, EDA, Statistics, Data Cleaning, Model Deployment
Tools	Jupyter Notebook, Google Colab, VS Code, Git, Streamlit

Projects

LSTM Next Word Predictor Live Demo — GitHub

- Built a Deep Learning based Next Word Prediction web application using TensorFlow, Keras, and LSTM trained on 10,000+ text sequences.
- Designed and trained an LSTM neural network over 100 epochs using Adam optimizer and categorical cross-entropy loss, achieving 72.93% training accuracy.
- Serialized the trained model (.h5) and tokenizer (pickle) for efficient inference.
- Deployed the application live as an interactive Streamlit web app with real-time next word predictions.

Anime Recommendation System GitHub

- Developed a content-based recommendation engine using Python and Scikit-learn on 12,000+ anime records.
- Performed data cleaning, preprocessing, and feature engineering to improve recommendation quality.
- Applied TF-IDF vectorization and cosine similarity for personalized recommendations.
- Conducted exploratory data analysis to analyze user behavior and genre preferences.

Education

B.Tech in Computer Science Engineering 2026

Babu Banarasi Das University, Lucknow

Class XII (CBSE) 2021

Vidya Public School, Ghazipur

Score: 87%

Class X (CBSE) 2019

Vidya Public School, Ghazipur

Score: 73%

Certifications & Training

- Data Science & Artificial Intelligence Training** — Grastech Pvt. Ltd.
- Hands-on experience in data preprocessing, EDA, and ML workflows using Python.
- Worked with real-world datasets and visualizations using Matplotlib and Seaborn.

Achievements

- Built and deployed an end-to-end Deep Learning application (LSTM Next Word Predictor) live on Streamlit Cloud.
- Developed ML projects focused on NLP and recommendation systems with measurable results.
- Continuously learning advanced Machine Learning and Deep Learning concepts.
- Strong problem-solving and analytical skills with hands-on project experience.
